

SCRAPMATES

July 2023- JAC Box Inspiration

Welcome from Ann

A somewhat belated July PDF and I can only thank you all for your patience whilst I tackled a very busy summer!!

Hopefully the layouts shared in the galleries gave you some inspiration to keep you going but if you have yet to crack open your July PDF take a look through and see how you can put those papers and elements together to scrap your favourite memories.

Michelle has created a beauty of a rainbow wreath layout for you and I show how you can focus on just one or two of the colours for a completely different look.

FEATURING...

**49&MARKET SPECTRUM
GARDENIA PAPERS AND
WASHI STICKERS**

**LAYOUTS FROM DESIGN
TEAM MEMBERS ANN
AND MICHELLE**

Michelle - Layout 1

Using the negative letters from the HAPPY cut file as her title with some doodled stitch marks Michelle has made a beautiful wreath design. This uses the lovely leaves in the kit (vary designs per box) but everyone got all the colours.

Michelle - Layout 2

A bold use of the block sides of the papers makes for a striking rainbow row of chevrons on Michelle's second page. Of course she brings some stitching in on a great layout which captures the great British weather well!

Ann - Layout 1

Ann backed the cut file in an assortment of colours and then layered it over a stencilled rainbow background. She used several different stencils and matched the colours behind the letters and even her Morph hunt photos tie in colourwise too!

Ann - Layout 2

Ann's second pages picks just two of the colours and combines them with the black and white elements in the kit to get a completely different vibe. Swap out the blue and green for other colours to match your photo and use coloured ink to stamp a title.
