

# SCRAPMATES

*June 2023- JAC Box Inspiration*

## Welcome from Ann

Halfway through 2023 with our June ScrapMates box which is just perfect for everyday photos and moments. Thanks to our Michelle who designed the everyday cutfile in your box this month, how perfect for so many photos! I love the bright colours this month and the puffy date stickers are just so fun.

Please scroll on or turn the page to see the layouts from Tracy and I using the box this month. Four very different pages for you to choose from plus there is even more inspiration in our June JACBox gallery from fellow members who were eager to get scrapping!

## FEATURING...

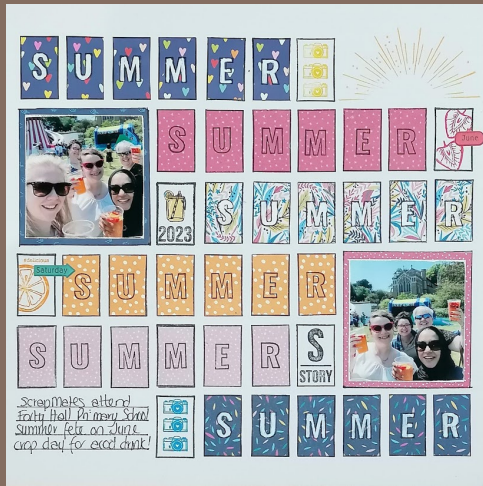

**COLOURFUL PAPERS  
PUFFY DATE STICKERS  
CUT FILE AND GEMS**

**LAYOUTS FROM DESIGN  
TEAM MEMBERS ANN  
AND TRACY**

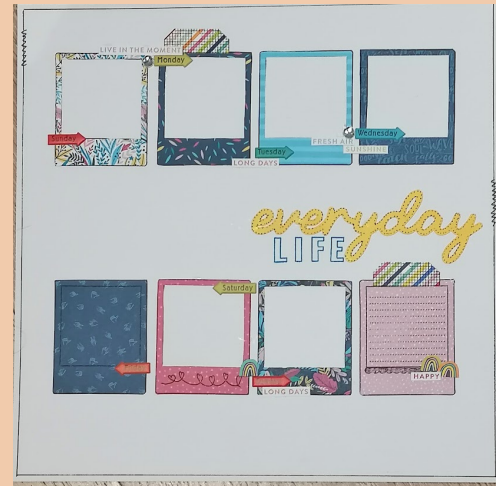

# Ann- Layout 1

I wanted to get as many of the colours and patterns on one page as they look go good together. Stamping rectangles and then cutting these out was a great way to vary a normal grid layout and repeat the word SUMMER for ths 2 photo layout,

# Ann - Layout 2

Ann's second layout is another grid variation this time creating polaroid frames to house photos of a week in the life. Photo will be added later and if the colours don't quite match the papers then they will be printed off in black and white!

# Tracy - Layout 1

What a wonderful way to make the most of all the puffy date sticker elements. Still such a clean design with no hint of messy from our mixed media queen but with lots of elements to look at and clever placement of the photo to hide the paper joins.

# Tracy - Layout 2

Lots of layering for Tracy's second page which also features a focal chevron element. The good times was on the reverse of one of the papers so not everyone will have in their kit bit you can replace with your own alpha title or embellishment
