May 2023- JAC Box Inspiration

Welcome from Ann

I can't quite believe we are May already, 2023 is sure zooming on! Soon we will be enjoying our summer holidays, days out with family and friends or perhaps a city break. Looking back I found I hadn't scrapped too many photos from my trips in 2022 and these travel themed papers this month were ideal to remedy that.

Please scroll on or turn the page to see the layouts from Michelle and I using the box this month. Four very different pages for you to choose from plus there is even more inspiration in our May Challenge galleries with lots of customers sharing their use of this versatile collection of papers.

FEATURING...

**PAPERS FROM SIMPLE
STORIES HERE AND
THERE COLLECTION**

**LAYOUTS FROM DESIGN
TEAM MEMBERS ANN
AND MICHELLE**

Ann- Layout 1

Inspired by a number of the May challenges Ann's first layout features an envelope to hold tags and tickets, a map (folded to look like a trail map before sticking down just the left & right edges to retain the fold) and a title inside the wooden banner frame.

Ann - Layout 2

Ann's second layout includes smaller elements cut from the papers and features some hand drawn clouds suspended on the thread in the kit with some sequin details added more more interest. Using the tags upside down replicates the hanging theme.

Michelle - Layout 1

Starting with the 3 tags in the kit (designs will vary per kit) Michelle created a cluster of elements and used the tags to house her photos. The colours work so well on the green background for a real safari feel and the fussy cut flowers add great detail.

Michelle - Layout 2

A great multi photo layout from Michelle for her second pages which is based on an ever popular grid style. The diecut geotag is a great statement element breaking up the uniformed lines along with the wooden heart and the title over 2 blocks.
